Invest in the Future of Optometry
The Governor of Indiana plays an influential role in the establishment and administration of state healthcare policies. As leader of the state and his party, the Governor can shape legislation and has the power to veto legislation. Among the agencies the Governor oversees are the Indiana Professional Licensing Agency, the Indiana Optometry Board, Family and Social Services Administration and Medicaid. The Governor can have a direct impact on the practice and scope of Optometry. A large turnout for this event will make a positive impression on the Governor and allow us to educate him on the profession and our interests.
